

ComfortLink™ Remote Thermostat with SchlageLiNK

Needs Analysis Questions for RSP

Common Daily Problems

- Have you or anyone in your family ever forgot or lost the house keys?
- Are you running late and don't want to come home to a dark house?
- Do the kids come home after school alone?
Are they home?? Are they safe??
- Would you like the ability to access and monitor your home remotely – vacation home, seasonal home, second home
- Do you want a better way to manage your house keeper or your pet sitter?
- Need a way to better manage energy in your home?
- Would you like to access your heating or cooling remotely to save \$\$?

The Trane & SchlageLiNK Solution

- Use your 4 digit code or cell phone to unlock the door & never hide a key under the mat again.
- Create a scene and use Schlage LiNK to trigger multiple lights to come on in the home.
- Get a text message or email when the kids come home, so you know they are safe!!
- Setup lighting groups, scenes, HVAC management, remote monitoring.
- Provide each with a unique code, review when they arrived and left with the built in event log.
- Manage the HVAC system, lighting and appliances remotely from your web enabled cell phone or PC.
- Access, schedule, program or change your settings and temperature from PC or web enabled cell phone
